

logfile.h

```
graph BT; logfile_c[logfile.c] --> logfile_h[logfile.h]; pf_administration_c[pf_administration.c] --> logfile_h; pf_daemon_c[pf_daemon.c] --> logfile_h; pf_search_c[pf_search.c] --> logfile_h;
```

A diagram illustrating the relationship between a header file and four source files. At the top center is a gray rectangular box labeled 'logfile.h'. Below it, arranged horizontally, are four white rectangular boxes with black borders: 'logfile.c', 'pf\_administration.c', 'pf\_daemon.c', and 'pf\_search.c'. Four dark blue arrows point from each of these four source files up towards the 'logfile.h' header file, indicating that each source file includes the header.

logfile.c

pf\_administration.c

pf\_daemon.c

pf\_search.c
