

rm\_blacklist\_entry

```
graph LR; A[rm_blacklist_entry] --> B[write_logentry]; B --> C[asctime];
```

A flowchart with three rectangular boxes connected by arrows. The first box, labeled 'rm\_blacklist\_entry', has a light gray background. A blue arrow points from its right side to the second box, labeled 'write\_logentry', which has a white background. Another blue arrow points from the right side of the second box to the third box, labeled 'asctime', which also has a white background. All boxes have a thick black border.

write\_logentry
